

COMPREHENSIVE SCREENING, PERSONALIZED ASSESSMENT, SAFETY AWARENESS.

Because You Need To Know—**JIV00**

JIV00 provides a practical and workplace-friendly way to assess cognitive impairment risk. Before individuals perform critical tasks like driving or operating equipment, engaging in caregiving, or performing duties that can result in harm to themselves or others, this 60-second digital screening tool provides personal feedback for your safety and the safety of others.

Screening is paired with Medical Review Officer supervised telehealth assessment, providing individuals who screen outside of their normal range immediate access to support.

JIV00 technology has been successfully deployed to individuals and in a growing number of workplace environments across diverse industries.

Demonstrated benefit from implementing the JIV00 program:

20% - 35% Overall Reduction of Accidents
15% - 55% Reduction in Costs of Accidents
25% - 70% Reduction in Worker's Comp Claims
11% - 18% Improvement in Productivity
