

TRACK AND VERIFY COMPLIANCE WITH STAT

STAT is designed to enable businesses to track results and verify compliance with required testing, occupational health records, wellness tests and other assessment statuses for employees. STAT offers real time reporting access in a secure record, with easy to follow dashboard visibility.

Cynergy Wellness combines its national MRO and physician capabilities with a broad range of expanded offerings via STAT:

- Drug testing and clinical diagnostics
- Occupational health services
- Clinic, laboratory, and device partnerships
- LIVE virtual services
- Digital questionnaires, consents, and certifications

Whether you need STAT access for physician only services or fully integrated end to end program solutions, Cynergy is your trusted partner for workplace solutions.

Features and Benefits:

- Secure digital upload for required documentation
- Notification of upcoming required events such as testing or for vaccine boosters
- All records are reviewed for completeness and accuracy by trained professionals at Cynergy Wellness
- Physician ordering and lab services for drug testing, clinical, and occupational health tests including telehealth consultation for critical values
- Detailed results views and compliance reporting
